

Greater Manchester's

HIDDEN TALENT

Aware of young people who need holistic employment support?

Greater Manchester's Hidden Talent can help.

We are a voluntary youth employment programme, working **specifically with hidden young people aged 18-25.**

Hidden young people are not in employment, education or training and **do not claim benefits**

The programme is led by [Greater Manchester Centre for Voluntary Organisation \(GMCVO\)](#), who have commissioned Delivery Partners to work with hidden young people.

Our Delivery Partners employ **Talent Coaches** who recruit young people to the programme, identify their barriers and work one-to-one to help them to overcome them.

We are still supporting young people in Bolton, Manchester and Salford.

To be eligible for our support, young people will have been out of education, employment and training for four months or more prior to registering, and will not have claimed welfare benefits within the past four months.

If you are aware of someone who fits our 'hidden' criteria, please get in touch with a Talent Coach using the details below.

Bolton
