

Lets Create Age friendly Future!

Ambition For Ageing Rochdale

Come And Grow your own Flowers, Vegetables and Fruits!

"I am a regular visitor At the garden. I have planted Spanish, Radish, Mint and coriander in my allocated box. I pick up fresh vegetables, cook and enjoy the taste"

Zohra Ahmed

Petrus Garden is a place where residents aged 50 and over from the central ward came together and joined an incredible team of volunteers to get engaged in gardening activities, making new friends and sharing ideas. People from diverse community got involved in outdoor and indoor activities. Participants enjoyed the Incredible Edible herbs Project where they experienced the natural aroma of herbal teas.

Petrus Garden Doors are always open to the people of APNA ILAKAA

Participants also learned about herbal remedies picked from the gardens. A summer solstice event brought even more members of the community together, with intergenerational activities involving the local nursery who released butterflies and the local schools also enjoyed learning about the wonderful plants grown by the community itself.

Come and experience an Age friendly environment!

"Petrus gardens provide holistic approach to gardening. There is no pressures to participate! You can just go and relax within the various seating areas"
Abdul Rehman
