Vision

To end health inequalities for Caribbean and African people in a generation

Mission

To lead strategic engagement on behalf of the Caribbean and African community so that Black people and organisations are empowered to improve and sustain holistic health and wellbeing!

Structural Barriers

Decision making &
Representation

Benchmarking to
majority populations

Racial discrimination
– unconscious and
conscious bias

Poor community
engagement &
investment especially
in the faith sector

COVID-19 Reports

"I am not saying that I just want black led or just mainstream services, I want both to be delivered in the best, fairest and most accessible way".
